

## C. GENERAL REPORT

### 2. INDIVIDUAL TRAINING REQUEST

Responsibility: Trainee

Destination: Participants and Co-ordination

*Several EuroGentest participants offer the possibility for training on request.*

*This form is to be filled in by the requesting fellow*

*Please add a CV on separate page*

<b>FELLOW</b>	<b>Name</b>	<b>Peter Chedraui MD, MHA</b>
	<b>Address</b>	<b>Av Carlos J. Arosemena Km 1.5</b>
	<b>Contact</b>	
	<b>Email</b>	<a href="mailto:peterchedraui@yahoo.com">peterchedraui@yahoo.com</a>
<b>Description of the requested training and motivation for such training: (max. 20 lines)</b>		

In our third year of participation in the EUGT project our Institute as partner P27 projects the initiation of a prenatal genetic diagnostic unit. As a background last year my P27 co-leader Xavier Landivar was awarded a fellowship through EUGT for a short training session at the Centre for Human Genetics of K. Leuven specifically regarding amniotic fluid karyotyping technique. We are implementing the technique at our lab at this point in order to be able to set up the unit. The present request for fellowship is to complete a short training session (as an observer) in K. Leuven under the tutorship of Jan Deprest, in order to gain more experience than the one I have already obtained in New York as a ACOG FIGO Fellow regarding invasive fetal procedures. In essence this training will serve as the cornerstone for the implementation of our prenatal genetic diagnostic unit at the Institute of Biomedicine of the Universidad Católica de Guayaquil, the first ever conceived. This will have a positive impact to health care system in relation to genetic counseling, genetic testing and for the future collaboration of P27 in other EUGT tasks as well as to the recently approved CAPABILITY project that intends to extrapolate the EUGT NoE to a similar model for Latin America.

#### **Number of person-months (days) requested**

One person (PCh) for 23 days

#### **Requested timing**

November 2<sup>nd</sup> to November 24<sup>th</sup> 2007

#### **Educational level (predoc, postdoc, experienced, ...)**

Doctor in Medicine and Surgery  
Specialist in Gynecology and Obstetrics  
FIGO Fellow In Maternal Fetal Medicine  
Master in Hospital Administration

#### **Actual position and Qualifications of trainee (academic, nurses, technicians, industrial, ...)**

Director Institute of Biomedicine of the Universidad Católica de Guayaquil, Ecuador.  
Chief of the perinatal and reproductive endocrinology research branch of the Institute of Biomedicine of the Universidad Católica de Guayaquil, Ecuador.  
Chief of the High Risk Pregnancy Unit of the Enrique C. Sotomayor Hospital Guayaquil, Ecuador.  
Research Director of the Enrique C. Sotomayor Hospital Guayaquil, Ecuador.

## Genetic Testing in Europe - FP6 Network of Excellence

Network for test development harmonization, validation  
and standardization of services
