Description of the requested training: (max. 20 lines)

Let me introduce myself. I'm the Head of Cytogenetics lab (Center of Medical Genetics and Primary Health Care, Yerevan, Armenia). I want to participate in the EQA in the frame of Eurogentest network. For this I'd like to attend the 10th Postgraduate Course in Classical and Molecular Cytogenetics, February 18th to 27th, 2008, in the laboratory of Cell. Biol. and Mol. Cytogenetics Faculty of Medicine Montpellier-Nimes, in Nimes, France http://www.biologia.uniba.it/eca/meetings/Nimes_2008.pdf. I received their invitation letter for this course. This includes different aspects of conventional and molecular cytogenetics (Cytogenetics and cell culture techniques, Application of molecular biology techniques to cytogenetics, Prenatal chromosome diagnosis etc), and will improve my knowledge and skills in clinical cytogenetics. The practical part following this theoretical course will be in a laboratory of my choice, during the second semester. After passing the examination I can get the European University Diploma in Molecular Cytogenetics and reach a good level of cytogenetic diagnosis in genetic counseling.
